To comply with the Consolidated Appropriations Act (CAA), Blue KC is required to submit certain data at an aggregated level, based on state, group size, and funding type. We must share what portion of the healthcare insurance premium was paid by the employer/plan sponsor and what portion of the healthcare insurance premium was paid by the employees.

Blue KC requests your help in collecting this data, as we do not have information about the premium contribution paid by employees. Blue KC will aggregate and submit this data to the federal government so that you do not need to. The purpose of this federal request is to better understand national healthcare costs, especially those paid directly by individuals. **Please respond by September 15, 2022.**

Will you provide your premium amounts as dollar amounts or percentages?

- Dollar amounts
- Percentages of total

Examples: Below are examples for answering the premium questions. If the amount of premium paid by each varied from month to month, please use the total costs for the year and divide by the number of months your plan was active for each calendar year. For example:

If your total health insurance premium was \$60,000 for 2020, the total plan sponsor costs

were \$48,000 and total member costs were \$12,000, and your plan was active for the entire calendar year:

- What **average monthly** premium amount was paid by the plan sponsor/employer on behalf of members? - **\$4,000 or 80%**
- What **average monthly** premium amount was paid by members? -- **\$1,000 or 20%**

If your total health insurance premium was \$10,000 for 2020, the total plan sponsor costs were \$5,000 and total member costs were \$5,000, and your plan was active for only five months of the calendar year:

- What **average monthly** premium amount was paid by the plan sponsor/employer on behalf of members? - **\$1,000 or 50%**
- What **average monthly** premium amount was paid by members? -- **\$1,000 or 50%**

For calendar year 2020:

What was your total annual healthcare insurance premium cost?

What average monthly premium amount was paid by the plan sponsor/employer on behalf of members?

What average monthly premium amount was paid by members?

For calendar year 2021:

What was your total annual healthcare insurance premium cost?

What average monthly premium amount was paid by the plan sponsor/employer on behalf of members?

What average monthly premium amount was paid by members?

Block 1

Examples: Below are examples for answering the premium questions. If the amount of premium paid by each varied from month to month, please use the total costs for the year and divide by the number of months your plan was active for each calendar year. For example:

If your total health insurance premium was \$60,000 for 2020, the total plan sponsor costs were \$48,000 and total member costs were \$12,000, and your plan was active for the entire calendar year:

- What **average monthly** premium amount was paid by the plan sponsor/employer on behalf of members? - **\$4,000 or 80%**
- What **average monthly** premium amount was paid by members? -- **\$1,000 or 20%**
