

Chronic Condition Management

Here to help you manage your condition every step of the way.

If you live with a chronic condition, you're not alone. Chronic conditions affect about six in 10 American adults*. With support from Blue KC, you can learn how to avoid potential problems and keep your health problems from getting worse.

We're Here to Help With Your Health Journey

Our dedicated, in-house registered nurses provide specialized support based on your condition and help you stay on track with care reminders. Our in-house social workers and Community Health Workers help members with chronic conditions address social determinants of health, involving access to food, transportation and more, which can pose additional challenges.

Chronic condition management supports conditions like:

- Asthma (including Pediatric Asthma)
- Chronic Kidney Disease (CKD)
- Chronic Obstructive Pulmonary Disease (COPD)
- Diabetes (including Pediatric Diabetes)
- Heart Disease
- Heart Failure
- High Blood Pressure

Registered nurses can assist with your conditions.

It's easy to connect with a registered nurse with the **Blue KC Care Management app**. This app is available at no additional cost and allows you to:

- Keep a diary of your symptoms
- Set daily reminders to take medications
- Read helpful articles about your condition and healthcare coverage
- Chat with a registered nurse to help you coordinate care

How To Get Started:

Step 1: Using your mobile device, search for **Blue KC Care Management** in the App Store or Google Play, or scan the QR code below to download the Care Management app.

Step 3: When prompted, use access code **khelppwelcome**.

Step 3: Create an account.
